

## A Horizon Europe - funded project

delivering practitioner-orientated change to the standardisation arena in CBRN-E

### BACKGROUND INFORMATION

The world and our societies are facing growing risks of natural, accidental or deliberate incidents deriving from the potential use of CBRN-E agents, which call for enhanced capabilities in risk and resilience management and governance.

Standards can help promote optimum community benefits, as they stem from consolidated results of experience, science and technology, which are established by consensus and approved by a recognised body.

### PEERS EXPECTED OUTCOMES

**BUILDING AN INTEGRATED  
COMMUNITY OF CBRN-E  
EXPERTS**

**STRENGTHENING EU  
PREPAREDNESS AND  
RESPONSE IN CBRN-E**

**ADVANCING AND  
REINFORCING THE EU  
OPERATIONAL SAFETY AND  
SECURITY POLICIES**

*This project has received funding from the European Union's Horizon Europe research and innovation programme under the Grant Agreement No. 101074040.*

# How we will make change happen

developing a practitioner-driven business-oriented ecosystem based on existing technical, technological, semantic and operational needs

- Pre-alpha and three prototype versions ( $\alpha$ ,  $\beta$ ,  $\gamma$ )
- User-centred functionalities
- Integration capabilities to existing community-building platforms (e.g., CMINE)
- e-Learning support
- Better Practice Guide initiative
- Data visualisation and gamification
- Three demonstrators showing how the ecosystem works

## PEERS PARTNERS

PEERS project is coordinated by KPMG Future Analytics and consists of a complementary consortium of nine partners including Europe's leading intelligence in resilience, the Resilience Advisors Network, two national standardisation bodies (UNMZ/CAS, MSZT), a research centre (FORMIT), a university (the University of Galway), two innovative SMEs (TFC Research and Innovation Limited and Székely Family & Co. Non-profit Llc.), and FIPRA International, a leading public affairs consultancy with a strong CBRN-E understanding. All partners are acting in solidarity for positive change to the standardisation process in line with the needs of policymakers and practitioners.
