

PEERS
PracticeE Ecosystem for standaRdS

Deliverable 5.1
PEERS Demonstrator Group

20 April 2023

V1.0

Project Information

Project title	PracticE Ecosystem for standaRdS	
Project acronym	PEERS	
Project number	101074040	
Start date/ Duration	1 st November, 2022	36 months
Topic	HORIZON-CL3-2021-DRS-01-04. Developing a prioritisation mechanism for research programming in standardisation related to natural hazards and/or CBRN-E sectors	

Work Package title	WP5: User Engagement & Demonstrators	
Task title	T5.1: Creation and management of the Demonstrator Group	
Deliverable title	D5.1: PEERS Demonstrator Group	
Deliverable type	O - Other	
Doc. Version & WP no.	V1.0	WP5
Due date	M5 - April 2023	
Lead Beneficiary	RAN	
Leading author(s)	Jon Hall, Lee Comley	
Contributing author(s)	Tom Flynn	
Internal Reviewer(s)	Blain Murphy	
SAB Reviewer(s)	David Crouch	
Release date	20 April 2023	

Classification – This report is:

EXECUTIVE SUMMARY

The PEERS Demonstrator Group aims to serve stakeholders contributing to and evaluating the new PEERS Ecosystem for practitioner-driven standardisation both individuals and representing organisations.

Building the Group is a long-term activity which will be undertaken over the next two years, creating a dynamic network of people interested in continuing the project's contribution to standardisation long after it finishes as part of the formal project period.

The Group has been reported to project partners. The Group uses a pre-existing Online Community Platform - The Crisis Management Innovation Network Europe (CMINE), to host a network of global partners. The intention is that all PEERS partners will work to identify and 'sign-up' relevant members to partake in its activities, particularly its demonstrations and evaluations.

A fully inclusive approach will be taken to all potential members of the Group, be they individuals or organisations. All opinions will be welcomed, and diversity / innovation of thinking encouraged.

The Group operates from a sound ethical foundation with clear rules and governance procedures with the aim of it becoming fully self-sustainable after the end of the project as part of its sustainability and exploitation strategy.
